SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Dr. Keys :

In an NRC Form 314 "Certificate of Disposition" dated January 11, 2013, received March 15, 2013; a letter dated January 17, 2013, received March 15, 2013; and a letter dated March 27, 2003, received March 27, 2013, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license number 24-32280-01.

The NRC staff has reviewed your final status surveys. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria. Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. **Your NRC license number 24-32280-01 is hereby terminated.**

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9841.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".
