APR 1 2013

SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE
(MAIL CONTROL NUMBER 577127)

Dear Dr. Niemi:

In letter dated March 6, 2012, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive materials license. The NRC staff has reviewed your initial submittal and additional information submitted on February 21, 2013. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required and NRC license number SNM-256 is hereby terminated.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c) (20) (iii).

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9870.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter J. Lee".

Peter J. Lee, Ph.D., CHP
Materials Control, ISFSI, and Decommissioning
Branch

License No. SNM-256
Docket No. 070-00277
Enclosure: Amendment No. 9
