Dear Mr. Lundberg:

The Office of Federal and State Materials and Environmental Management Programs has received your March 22, 2013, letter responding to the NRC's February 28, 2013 comments on the proposed Radiation Control Amendments to Utah's enabling legislation, H.B. 124. As we discussed on March 29, 2013, we will need to have the law, once signed by the Governor and the subsequent letter from the Utah counsel that address Utah's intent to implement the March 22, 2013, procedures under the new provision of Utah State law before proceeding with our review of your response.

I will continue to be the contact for our review. If you have any further comments or questions, please contact me. Thank you for your attention.
