Hi Dan,

Okay, thank you for the updated contact information. I will contact you prior to the delivery date. Please feel free to contact myself or Trish if you have any questions.

Thanks,
Annette

Trish – Thank you! We certainly appreciate your help. Janet is now enjoying retirement, so if you ever need to get in contact with the DEMA REP Section you can reach out to either myself, Arthur or Maureen (in the cc field above).

Annette – the Delaware Emergency Management Agency would like to participate in the KI replenishment program. The tablets can be sent to me at the address listed in the email signature below. Please let me know if you need any other information.

Thanks again-

Dan

Subject: RE: Question re: KI

Hi Dan

We sent out an email in early March but we sent it to Janet. Is she no longer with DEMA?

Annette Stang is coordinating our replenishment. I have cc'd Annette on this email.

Thanks for contacting us. I apologize any confusion as it is NRC's intent to replenish.

Trish

Subject: Question re: KI

Hello Patricia-

As part of our Radiological Emergency Preparedness Program, the Delaware Emergency Management Agency (in conjunction with the Delaware Division of Public Health) conducts annual KI distribution sessions in various locations throughout the 10-mile EPZ surrounding the Salem-Hope Creek Nuclear Generating Stations. This is very popular program and is always well-received by EPZ residents here in Delaware.

The only concern that we have is that our current stockpile of 130mg tablets will expire in 2014.

Is the NRC still maintaining responsibility for the KI program? If so, how can DEMA go about replenishing our current stockpile?

Any information you can provide would be greatly appreciated. Thanks very much-

Dan
