Mail Control No. 580191

SUBJECT: DISCONTINUATION OF EVALUATION OF APPLICATION FOR SEALED  
SOURCE AND DEVICE REGISTRATION AND EXEMPT PRODUCT  
DISTRIBUTION LICENSE

Dear Mr. Hatcher:

This letter is in response to your application dated February 11, 2013, requesting the registration of the Model OEG Series gunsights and an exempt product distribution license. In reviewing the application, we find that it is lacking significant amounts of the required information. The information your application did not provide is listed in the Enclosure.

With incomplete documents and unavailability of adequate information, the NRC Staff is unable to complete a safety evaluation. Therefore, we have discontinued the review of your applications for a sealed source and device registration and exempt product distribution license. This is without prejudice to re-submission of your application. When you decided to re-submit your application for registration, please ensure that you have included the entire application with the mentioned sufficient information needed to allow NRC to evaluate your device.

Please note that if you re-submit the application with the information that we are requesting in the Enclosure within 12 months from the date your application fees were received (March 14, 2013), there is no need for new fees. The fees, which you have paid, will be applied as continuation of your application dated February 11, 2013. However, the application fees, which we have received so far, were insufficient. As explained in the e-mail dated February 21, 2013, from Ms. Rosalyn Jones, NRC Accounts Receivable Branch, a total amount of \$12,000 was needed to cover the cost of the application fees [\$4,300 (fee category 3H) and \$7,700 (fee category 9A) totaling \$12,000]. With your original letter and application dated February 11, 2013, you remitted \$500, leaving a balance of \$11,500. The additional payment made was only \$11,000. Therefore, \$500 is still due.

F. Hatcher
