---

Dear Sir or Miss:

We are updating our complement of board certified, authorized users and found that one of our members had not been added onto our license in our 2012 amendment request. The following information is presented for the addition of an Authorized User.

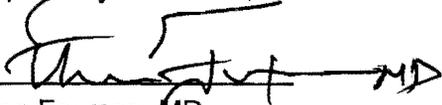

ITEM 1. Addition of AU

A. Angabeen S. Khan, MD. For use of materials in 35.100, 35.200, 35.300

A photocopy of her previous licensing with Medical Imaging Center, PC, (USNRC Materials License No. 06-21317-01) is enclosed. The Medical Imaging Center, PC license was merged into our license in late 2009.

Should you have any questions or desire additional information regarding our private practice, nuclear imaging services, please contact me, or, Dr. Ronald J. Rosenberg. We appreciate your efforts with our amendment requests and we look forward to a continued safe and effective materials program. Thank you.

Respectfully submitted,

Ethan Foxman, MD  
President

Amendment No. 12

15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
