SUBJECT: ABB, INC., REVIEW OF RESPONSES TO REQUESTS FOR ADDITIONAL INFORMATION REGARDING FINAL STATUS SURVEY REPORT SUBMITTALS NOS. 5, 6, AND 7 FOR THE CE WINDSOR, CONNECTICUT SITE, CONTROL NOS. 577155, 577311, AND 577523

Dear Mr. Conant:

This letter is to acknowledge the receipt of your letters in response to our requests for additional information regarding Final Status Survey Report Submittals (FSSRs) Nos. 5, 6, and 7. The NRC requested additional information for FSSR No. 5 in a letter to you dated November 27, 2012. You responded to that request in letter to the NRC dated January 14, 2013. We also requested additional information regarding FSSRs Nos. 6 and 7 in a letter to you dated January 8, 2013. You responded to this request in a letter to the NRC dated January 31, 2013.

The NRC has reviewed your responses and has no additional questions or comments at this time regarding FSSRs Nos. 5, 6, and 7. The NRC has concluded the review of the seven FSSRs submitted for the ABB, Inc. CE Windsor, CT site. Please note that the completed review of these FSSRs does not mean that the areas covered by these reports are approved for unrestricted use at this time. That determination will be made by the NRC after you have requested your NRC license be terminated, acknowledged that no licensed material is on site, and in consultation with the U.S. Army Corps of Engineers (USACE) and the State of Connecticut Department of Energy and Environmental Protection (CTDEEP). Your two responses have been forwarded to these agencies and they are continuing their review of your responses as well as the seven FSSRs that have also been submitted.

Thank you for your cooperation in this matter. If you have any questions regarding this letter, please call John Nicholson at (610) 337-5236.

Sincerely,
