Re: Cultural Resource Documents for HRI's In-Situ Leach Uranium Mining Project

Dear Mr. Linton:

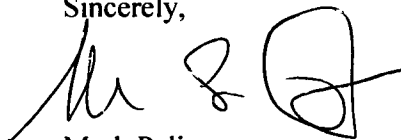

Mr. David Taylor of the Navajo Nation Department of Justice (NNDOJ) has requested that the Nuclear Regulatory Commission (NRC) provide him with copies of documents that the NRC has sent to the Navajo Nation Historic Preservation Department (NNHPD), the New Mexico State Historic Preservation Office (MNSHPO) and other interested Indian tribes evidencing the NRC's compliance with its consultation obligations as required by section 106 of the National Historic Preservation Act (NHPA).

Please find copies of the documents listed below, which are part of the administrative record for the Project. The documents are listed in chronological order and include cultural resource reports, surveys, ethnographic studies, and correspondence between the NRC and consulting parties for the Project. Please forward on the documents to Mr. Taylor at the following address:
