Subject: Amendment Request

Our manufacturing facility located in Pittsfield, Maine has had an address change due to the Town of Pittsfield implementing an advanced 911 system requiring realignment of address numbers. The address has been changed from 5 N. Main St to 129 N. Main St. The physical location of our facility has not changed in any way just the street number. As a result of this change we respectfully request that the address our license also be updated to reflect the change as follows:

129 N. Main St  
Pittsfield, ME 04967

This address change would be both for the authorized distribution locations on the license as well as our official mailing address for correspondence. Questions regarding this license amendment request should be directed to the Radiation Safety Officer:
