(NOTE: This will be used as the  
Documents Title in ADAMS)

4/8/2013 (15:15) I spoke with Mr. Volz about the inspection conducted on April 3 and 4, 2013, and of my discussion with management. I informed Mr. Volz that the issues that were left unresolved were with the State of Maryland license for the Edgewood, MD facility and the NRC license for the Danbury, CT facility. There were no violations or safety concerns identified for the "E" license and a clear 591 would be issued from the NRC Region I office. A decision would be made if a violation or safety concern exists after review of the information that was to be provided concerning trade shows and HAZMAT training by the licensee's Danbury, CT office.
