John,

Rocky advised that the agenda on April 17 OI call is light. I did not receive any request from our tech staff and I do not have any items for discussion. But if you want to apprise Yuken on the status of the responses to RAI 6644 and the WCAP revisions, please let me know. Otherwise, I'll sit out this coming Wednesday call.

BTW: I do not remember how we close out the November 2012 audit actions items (see attached). Some I thought were closed (#5 and #8) and others I expect to be in the RAI response, or FSAR revisions, or WCAPs.

Regards
