

**U.S. NUCLEAR REGULATORY COMMISSION****Date:** 04/29/2013**TELEPHONE CONVERSATION RECORD****Mail Control No.** 580210 **License No.** 47-23065-01 **Docket No.** 03020231**Name of Licensee:** Thrasher Engineering, Inc.**Name of Participant(s):** Andrew Kincell, RSO; Steve Harmon, Manager**Telephone No.** 304-624-4108**Subject:** Request for Additional Information, Letter dated March 13, 2013.

Mr. Kincell was contacted to request additional information regarding the amendment letter dated March 13, 2013, because the request was not clear. Specifically, the following items were discussed and I requested that the licensee send a letter clarifying the amendment request.

1. Verified the contact information for the license. No changes required.
2. Requested a letter stating how many gauges they wish to possess, including the manufacturer and model numbers of the different gauges.
3. Requested the gauge listed in the letter, Model 3421C be verified. This was a typographical error. The gauge is actually a Model 3241C.
4. Discussed the need to perform a prospective dose analysis to ensure doses to members of the public and employees that are not authorized gauge users do not exceed the dose limits.
5. Discussed the need to ensure additional gauges are not acquired before the license authorizes them.

Requested the licensee forward a revised letter to include the information in item Nos. 2 and 3 above, signed by a principal of the corporation, requesting the amendment. Mr. Kincell agreed to send the revised letter by the end of the week.
