April 24, 2013

Docket No. 040-00791
Control No. 580065

License No. SMB-151

L. Renee Welsh
Director EH&S and Facilities-MCO
United Technologies Corporation
Pratt & Whitney
400 Main Street MS 124-26
East Hartford, CT 06108

SUBJECT: UNITED TECHNOLOGIES CORPORATION, ACCEPTANCE OF NOTIFICATION
OF CESSATION OF ACTIVITIES AT A SITE, CONTROL NO. 580065

Dear Mr. Welsh:

This refers to your letter dated February 18, 2013, notifying the NRC pursuant to 10 CFR 40.42(d)(2) that you have decided to permanently cease principal activities under the above-listed license. WE accept that letter as your notification. Based on the letter, we understand that you expect to complete your decommissioning activities within 24 months, including the submission of a final radiological survey status report demonstrating that the facility meets the criteria for license termination as described in Subpart E of 10 CFR Part 20.

You should review thoroughly the regulations in 10 CFR 40.42 to ensure that you meet required time limits and submit all necessary information. In particular, you should determine if the activities necessary to terminate your license will require you to submit a decommissioning plan pursuant to 10 CFR 40.42(g). Please note that 10 CFR 30.36(d) allows you to submit a decommissioning plan within 12 months of your notification to us. If you cannot meet the 24 month completion required by 40.42(h) then you should request an alternate schedule as described in 10 CFR 40.42(i).

You should also review your records of use of licensed materials under this license, which was issued in 1957, to ensure that all locations of use at the addresses currently listed on your license are included in your final status survey. The NRC guidance for decommissioning may be found in NUREG-1757, "Consolidated Decommissioning Guidance", Volumes 1 through 3. These may be found on the NRC website at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1757/>. Additional guidance is in NUREG-1575, "Multi-Agency Radiation Survey and Site Investigation Manual (MARSSIM)" which may be found at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1575/>.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture

L. Welsh

Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Sincerely,
