RE: Invite to Increased Controls Table Top Drill Practice

NRC Staff,

This upcoming July 11, 2013 – we are preparing to perform a Radiation Disaster Table Top Drill affiliated with our increased controls upgrades for license #21-03210-01. This drill is currently called Motor City Thunder and will include our hospital, multiple cities (Grosse Pointe and Detroit, MI), county, state and federal involvement, and is being run by the Department of Energy contractor to the Deputy under secretary for counterterrorism group Parsons Senior Counterterrorism Planner Holly Vaughn ph: 202 586 8692.

We have not set the location but it will be in the Detroit area at a conference center and location and time details will follow, or you can contact me directly at 313 343 7719 or laura.smith7@stjohn.org to discuss your potential involvement in our Table Top Radiation Disaster Drill. We hope you can attend, as this will be an exciting learning experience to responses to Radiation Disasters.

Sincerely,

A handwritten signature in black ink, appearing to read 'Laura T. Smith'.

Laura T. Smith, MS, DABR - Radiation Safety Officer
