

**UNITED STATES  
NUCLEAR REGULATORY COMMISSION**  
WASHINGTON, D.C. 20555-0001

May 6, 2013

**LICENSEE:** Duke Energy Carolinas, LLC

**FACILITY:** Oconee Nuclear Station, Units 1, 2, and 3

**SUBJECT:** SUMMARY OF APRIL 10, 2013, MEETING WITH DUKE ENERGY CAROLINAS, LLC, TO DISCUSS MILESTONES RELATED TO AN APPARENT VIOLATION OF LICENSE CONDITIONS ON FIRE PROTECTION AT THE OCONEE NUCLEAR STATION, UNITS 1, 2, AND 3 (EA-13-010)

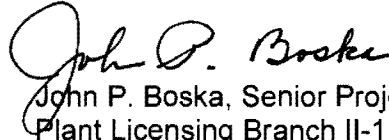

On April 10, 2013, a Category 1 public meeting was held among staff from the U.S. Nuclear Regulatory Commission (NRC) and representatives of Duke Energy Carolinas, LLC (Duke or the licensee) at NRC Headquarters, One White Flint North, 11555 Rockville Pike, Rockville, Maryland. A list of attendees is enclosed. The purpose of the meeting was to allow Duke to discuss their proposed milestones which were submitted to the NRC as part of the corrective actions for an apparent violation of a license condition on fire protection. Duke submitted the milestones to the NRC by letter dated March 11, 2013, Agencywide Documents Access and Management System (ADAMS) Accession No. ML13079A321. The NRC had previously stated the apparent violation to Duke in a letter dated January 31, 2013, ADAMS Accession No. ML13017A456, and held a predecisional enforcement conference with Duke on March 5, 2013, see ADAMS Accession No. ML13072A426.

The licensee's presentation is found in the meeting slides (ADAMS Accession No. ML13099A447). During the predecisional enforcement conference, Duke had acknowledged that they were in violation of the license conditions on the fire protection program, since they had not completed the Protected Service Water (PSW) system modification by January 1, 2013. Duke stated that they had taken corrective actions, had implemented compensatory measures, and had developed new milestones for the completion of the PSW system modification. The milestones were further discussed at this meeting.

The licensee discussed six main milestones. These milestones lead to incremental improvement in plant safety over time. The NRC staff questioned the licensee as to the validity of the schedule and the licensee's ability to stay on schedule. Duke stated that they have committed the resources necessary to meet the scheduled dates.

Public Meeting Feedback forms were made available at the meeting. As of the date of this meeting summary, no completed feedback forms have been received.
