Ken,

The NRR staff has completed the acceptance review for ACCESSION No.:ML13044A662, Quad Cities, Unit 2, Relief Request 15R-11 Associated with Reactor Pressure Vessel Penetration N-11B Repair (TAC MF1462) dated February 13,2013. The submittal is acceptable for review. We discussed this and its similarity to the recently issued Relief issued the end of January regarding the temporary relief. Mr. Poehler cited some recent industry experience during the call. This email will be put in ADAMS to document the acceptability to begin a review and RAls are possible in the course of the review.
