Subject: Nuclear Regulations Interview

Chairman Allison M. Macfarlane,

I am an eighth grade student attending P.S.122 Q, Academy for the Intellectually Gifted. I am currently working on a project regarding regulations on nuclear power plants. My seven group members and I are aware of the importance of this topic, and would appreciate your help, knowing that you are an expert on issues regarding nuclear waste. Through our research and interest, we know that this is a very important topic. Below is an interview I would like for you to fill out. It would really help the process of our project.

Thankyou,
Kainat Meer

Problem: Regulations on Nuclear Power

Chairman Allison M. Macfarlane

- a. Is this a problem that you think is important? Why?
- b. Do you think others in our community believe this is an important problem? Why?

c. What policy, if any, does government now have to deal with this problem?

If a policy does exist answer the following questions:

- ¥ What are the advantages of this policy?
- ¥ What are the disadvantages of this policy?
- ¥ How might the policy be improved?
- ¥ Does it need to be replaced? Why?
- ¥ What disagreements about this policy, if any, exist in our community?

d. Where can I (or my class) get more information about this problem

and the different positions people take on the problem
