General Comment

Dear Sir: I have been trying to send a message regarding uranium mining in Crook County, however the federal web site is experiencing difficulties all morning and I may miss today's deadline. Please know that I attempted to express my concern. I live in Lawrence County near the Wyoming border and I am concerned about leaks and contamination of our water sources. I hope the NRC will consider the ecological impacts on Mother Earth and once and for all stop relying upon its Generic EIS and fully consider the likely impacts to water, land, and air resources from uranium mining in Crook County. Thank you for relaying my message if you are able to reach the web site.

Sincerely, Jace DeCory, 1750 College Lane, #13, Spearfish, SD 57783
