

Note to file dated May 20, 2013

License No.: 52-23044-01
Docket No.: 03020209
Control No.: 580487

SUBJECT: Basis for authorizing Ivan Velez-Miro for use of radiopharmaceuticals permitted by 10 CFR 35.100, 35.200 and 35.300 pursuant to 10 CFR 35.57 (training for the experienced authorized user).

In an amendment request dated April 8, 2013, Hospital Hermanos Melendez requested that Ivan Velez Miros, M.D. be added to the license as an authorized user. They stated in their request that Dr. Velez Miro was listed as an authorized user on the VA Hospital license in San Juan. I performed an ADAMS search and found Dr. Velez Miros listed as an authorized user on two NRC limited scope licenses. They are Advanced Technonuclear Imaging Center (52-25340-01) and Caguas Cardio Imaging (52-31386-01). I also reviewed the additional information submitted with Control No. 144203 documenting that Dr. Ivan-Velez Miro was authorized by VA Caribbean Healthcare System Permit No. 52-04359-01, Docket No. 03003514, obtained under Master Material License No. 03-23853-01VA of the Department of Veteran Affairs, for the use of radiopharmaceuticals permitted by 10 CFR 35.100, 35.200, and 35.300. Based on the above information, I have determined that Ivan Velez Miro, M.D. may be added to the Hospital Hermanos Melendez license as an authorized user of 35.100; 35.200; and 35.300 materials.
