**Re: Lost Creek Project,  
NRC License SUA-1598, Docket No. 40-9068  
Amendment Request to Remove License Condition 12.14**

Dear Sir:

Lost Creek ISR, LLC (LCI), hereby requests to amend Lost Creek ISR, LLC's NRC License SUA-1598 to remove License Condition 12.14 in accordance with specified License requirements. License Condition 12.14 requires that a completed Quality Assurance Project Plan (QAPP) consistent with Regulatory Guide 4.15 (as revised) be submitted to NRC for review at least 60 days prior to the preoperational inspection.

The completed QAPP is attached. LCI requests that the QAPP be held confidential under the provision of 10 CFR 2.390(a)(4) due to proprietary information contained within. All pages in the QAPP are appropriately marked, "Confidential and Proprietary – 10 CFR 2.390 (a)(4)" and an affidavit is attached as required by paragraph 2.390(b).

Please find behind this cover, the affidavit, and the required QAPP. Please contact me or Dr. Charles Kelsey at the Casper office if you have any questions regarding this submittal.

Regards,

*for*   
Steve Hatten

**LOST CREEK ISR, LLC**  
**AFFIDAVIT OF JOHN W. CASH**

1. My name is John W. Cash, and I am Vice President of Regulatory Affairs, Exploration and Geology of Ur-Energy USA Inc., the sole Member and the Manager of Lost Creek ISR, LLC. I am authorized to execute this affidavit on behalf of Lost Creek ISR, LLC (LC ISR, LLC) and may bind LC ISR, LLC to the statements contained herein.
2. On April 24, 2013 LC ISR, LLC submitted a letter to the U.S. Nuclear Regulatory Commission to request Amendment of the License SUA-1598 to remove preoperational license condition 12.14 which requires the submittal of a Quality Assurance Project Plan (QAPP) for NRC review at least 60 days prior to the preoperational inspection.
3. Included with the April 24, 2013 submittal is the required QAPP.
4. Pursuant to NRC regulations in 10 CFR §2.390(a)(4), LC ISR, LLC has labeled the entire QAPP "WITHHOLD FROM PUBLIC DISCLOSURE UNDER 10 CFR 2.390(a)(4), PROPRIETARY."
5. LC ISR, LLC asserts that the QAPP should be withheld from public disclosure as confidential information for the following reasons:
  - i. The information conveyed in the document is not available in any public sources. Having been developed by LC ISR, LLC personnel, and consultants pursuant to confidentiality agreements, and being specific to the Lost Creek project, the QAPP is proprietary to LC ISR, LLC. It is not the type of information which would be required to be publicly disclosed by LC ISR, LLC or its publicly traded parent corporation, Ur-Energy, under relevant law. To allow this information to be publically available within the NRC files therefore would be potentially quite competitively injurious to LC ISR, LLC; and
  - ii. LC ISR, LLC fully understands that withholding the designated data and information does not preclude [or deprive any independent party of the right to inspect the confidential information] any independent party from inspecting the confidential information under the terms of an appropriate protective order in the context of an NRC licensing hearing or other administrative proceeding.

John W. Cash, Vice President of Regulatory  
Affairs, Exploration and Geology  
**Ur-Energy USA Inc., as Member/Manager of  
Lost Creek ISR, LLC**

State of Colorado       )  
                                      )ss.  
County of Jefferson     )

The foregoing Affidavit was affirmed and acknowledged before me this 24<sup>th</sup> day of April, 2013 by John W. Cash, Vice President of Ur-Energy USA Inc., a Colorado corporation.

Witness my hand and official seal.

My commission expires: 4/25/2016
