475 Allendale Road  
King of Prussia, PA 19406-1415Re: NRC License 07-12153-02  
Docket No.: 030-01303

Dear Sir or Madam:

Please remove Larry Simpson, PhD from the list of authorized medical physicists on this license. He is no longer employed by Christiana Care. In his place on Item 13 D., please add Firas Mourtada, PhD as the authorized user.

I would also like to inform you that, effective June 07, 2013, we will permanently discontinue treating patients in the Nuclear Medicine lab located in the Medical Arts Pavilion II, 4735 Ogletown-Stanton Road, Newark, DE. We will follow this announcement with the results of our decommissioning survey of the site when that information is available. Please note that we will not immediately vacate the premises on June 07 as there is equipment that will need to be relocated after patient procedures end on that date. Any remaining inventory of radioactive material will be transferred to the Christiana Hospital site. We will then want that site removed from Item 10. of this license when it is released for unrestricted use.

If you have any questions about this request, or need any additional information, my contact information is listed above.

Thank you very much for your assistance.

Sincerely,

Joseph F. Solge, Jr., Radiation Safety Officer

Approved by:

Patrick Grusenmeyer, ScD, Senior Vice President, Cancer and Imaging Services
