**Re: Notification of Relocation – U.S.N.R.C. License No. 42-23889-01E and
Registration Certificate No. NR-1180-D-101-E**

Dear Sir:

Please accept this letter as formal notice that TRUGLO, Inc. has successfully relocated to 525 International Parkway, Richardson, Texas 75081.

TRUGLO, Inc. will distribute all products containing tritium from this new location only. Such distribution will be conducted in accordance with the terms of our license. Please accept this letter as TRUGLO's formal request to now remove the 710 Presidential Drive, Richardson, TX 75081 address from our existing "E" – license and replace with the our new address at 525 International Parkway, Richardson, TX 75081.

Please send the amended license to my attention, Lorraine Hellinghausen – Radiation Safety Officer at the 525 International Parkway, Richardson, TX 75081 address at your earliest convenience.

If you require additional information or have any questions, please contact me at (972) 774-0300 ext. 113.

Thank you in advance for your time.

Sincerely,

Lorraine Hellinghausen
Radiation Safety Officer
TRUGLO, Inc.

Re: Request for Removal of SITE #001 – 710 Presidential Drive, Richardson, TX 75081 – License No. L05519

U.S.N.R.C. License No. 42-23889-01E and Registration Certificate No. NR-1180-D-101-E

Dear Mr. Kelly:

In reference to our previous notice to your offices of the relocation of TRUGLO, Inc. to 525 International Parkway, Richardson, TX 75081, please accept this letter as a written notification that our relocation has successfully occurred and that we are asking for the amended license to reflect only one site for TRUGLO, Inc. Site Number 001 should now be removed from our license. All activities related to our existing license occur at Site Number 002 - 525 International Parkway, Richardson, TX 75081.

In connection with departing the Site Number 001 - 710 Presidential Drive, we have conducted the required "Close-out Sampling Survey" consisting of wipe tests of all work surfaces, as well as the floor in the previous Tritium Room. Please see the attached diagram showing the location of wipe tests. A total of nine wipe tests were conducted. (Exhibit "A"). A copy of the official exiting wipe test results is included for your convenience. (Exhibit "B"). Also conducted was a separate wipe test regarding the safe used for storage of the GTLS units. (Exhibit "C"). We are pleased to inform you that all wipe tests performed came back with 0.0000 contamination results.

WHEN BRIGHTNESS COUNTS

Please note that we have included with this letter a final location diagram of our new Tritium Room. (Exhibit "D") As previously stated, this room has restricted access by lock and key.

Again, TRUGLO acknowledges that the submissions made to the Texas Department of State Health Services in connection with the issuance of License No. L05519 are still true and correct.

The amended license may be faxed at your convenience to our offices at 972-774-0323 Attn: Lorraine Hellinghausen. We understand that the original documents will be sent via U.S. mail to our new address at 525 International Parkway, Richardson, TX 75081.

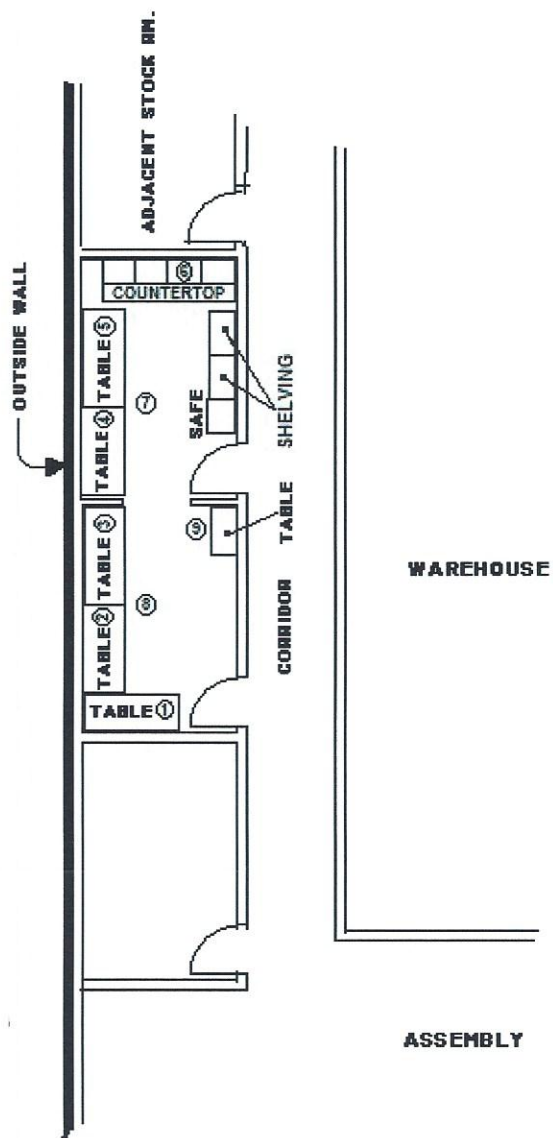

If you require additional information or have any questions, please contact me at (972) 774-0300. In the event that you can not reach me, please ask for Mr. Tony LoRocco. Again, thank you in advance for your time.

Sincerely,

Lorraine Hellinghausen
Radiation Safety Officer

CERTIFICATE OF LEAK TESTS

This is to certify that the encapsulated sources identified below were leak tested on April 12, 2013, and each was found to contain less than 0.005 microcurie of removable contamination on the sealed source. This amount is within the limit acceptable by the U.S. Nuclear Regulatory Commission and Agreement States.

IDENTIFICATION OF SEALED SOURCES

(Close-Out Sampling Survey - 710 Presidential Drive)

Isotope	Serial Number	Source Number	Amount of Source	Removable Contamination (μCi)
H ₃	N/A	1	30 mCi	0.0000
H ₃	N/A	2	30 mCi	0.0000
H ₃	N/A	3	30 mCi	0.0000
H ₃	N/A	4	30 mCi	0.0000
H ₃	N/A	5	30 mCi	0.0000
H ₃	N/A	6	30 mCi	0.0000
H ₃	N/A	7	30 mCi	0.0000
H ₃	N/A	8	30 mCi	0.0000
H ₃	N/A	9	30 mCi	0.0000

Remarks: Test administered as a Wipe Test.

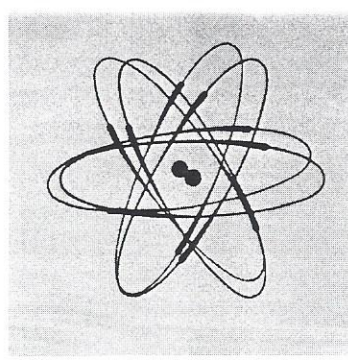

Date: April 26, 2013
