## General Comment

Please do not allow SONGS to reopen. The safety risks, as we have seen with Fukushima, are real and repeatable here, as well as to surrounding states. There is NO safety escape for those of us landlocked here by this plant. We do not want to lose our home nor to die from a crisis. We ask for alternative energy to be in place across the USA and that you start now with that commitment, transitioning your agency to another agency over such, such as the hydrogen alternatives mentioned by one scientist at a hearing months ago. Thank you.
