General Comment

This is a request that the nuclear plant at San Onofre continue in shut down until there is absolute proof that an earthquake will not happen in that area. WE are already dealing with untold amounts of radiation from the Fukushima plant in Japan, and as a citizen I do not want more to deal with. If you choose to reopen the plant you may be responsible for the untimely deaths of hundreds of thousands of people. Be responsible in your actions. All of our lives depend on it.
