Mr. Scott Head
Manager, Regulatory Affairs
Nuclear Innovation North America, LLC
122 West Way, Suite 405
Lake Jackson, TX 77566

SUBJECT: IDENTIFICATION OF NEW INFORMATION AFTER ISSUANCE OF THE FINAL ENVIRONMENTAL IMPACT STATEMENT FOR SOUTH TEXAS PROJECT, UNITS 3 AND 4, COMBINED LICENSE APPLICATION

Dear Mr. Head:

The purpose of this letter is to request that Nuclear Innovation North America LLC (NINA), copy the U.S. Nuclear Regulatory Commission (NRC or Commission) environmental project manager on correspondence between NINA, Federal, State and other agencies regarding the South Texas Project, Units 3 and 4 combined license application. This correspondence should include, but is not limited to, communications with the U.S. Army Corps of Engineers and other Federal and State agencies. The reason for this request is to ensure the staff is made aware of any changes to the proposed action and new circumstances or information that might be potentially significant to our environmental review. If there has been correspondence regarding environmental aspects of the project since the issuance of the final environmental impact statement (FEIS) in February 2011 that were not previously submitted to the NRC, the NRC requests that information be submitted at this time.

The NRC would prepare a supplement to the FEIS in accordance with Title 10 of the *Code of Federal Regulations* (CFR) Section 51.92, if 1) there are substantial changes in the proposed action that are relevant to environmental concerns, or 2) there are new and significant circumstances or information relevant to environmental concerns and bearing on the proposed action or its impacts. The NRC will review all correspondence provided to us to determine if a supplement to the FEIS is warranted. The basis for this request is 10 CFR 51.41, which provides that the Commission may require an applicant to submit information to the Commission that may be useful in aiding the Commission in complying with Section 102(2) of the National Environmental Policy Act.

S. Head
