SUBJECT: REVISION NO. 8 OF CERTIFICATE OF COMPLIANCE NO. 9342 FOR THE
MODEL NO. VERSA-PAC PACKAGE

Dear Mr. Arnold:

On May 10, 2013, the staff issued Certificate of Compliance No. 9342, Revision No. 7, for the Model No. Versa-Pac package. The document incorrectly identified the revision number as 6, instead of 7, on page 2 and 4 of the header box of the certificate. Additionally, under "References," the supplement dated, "May 6, 2013" has been corrected to "May 7, 2013." This letter provides the corrected certificate, Certificate of Compliance No 9342, Revision No. 8. Revision No. 8 of this certificate supersedes Revision No. 7 in its entirety.

The approval constitutes authority to use the package for shipment of radioactive material and for the package to be shipped in accordance with the provisions of Title 49 of the *Code of Federal Regulations* (49 CFR) 173.471. Those on the attached list have been registered as users of the package under the general license provisions of 10 CFR 71.17 or 49 CFR 173.471.

If you have any questions regarding this certificate, please contact me or Huda Akhavannik of my staff at (301) 287-9241.

Sincerely,

/RA/

SAFETY EVALUATION REPORT
Docket No. 71-9342
Model No. Versa-Pac Transportation Package
Certificate of Compliance No. 9342
Revision No. 8

SUMMARY

Staff became aware that Condition No. 1.b, "Revision Number," on pages 2 and 4 of Revision No. 7 of this certificate was erroneously left as Revision No. 6. Additionally, under "References," the May 6, 2013, reference has been corrected to May 7, 2013. Staff has corrected these errors and concludes that they do not affect the ability of the package to meet the requirements of 10 CFR Part 71.

EVALUATION

Staff became aware of errors that had been made on Revision No. 7 of this certificate. In that revision, staff erroneously left the text under Condition No. 1.b, "Revision Number," as "6" instead of updating it to "7" on pages 2 and 4 of the certificate. In this revision, staff has updated the condition to "8." Additionally, staff erroneously dated a reference as "May 6, 2013" in Revision No. 7 when it should have been, "May 7, 2013." These changes correct a staff introduced error, and staff finds that the changes do not affect the ability of the package to meet the requirements of 10 CFR Part 71.

CONDITIONS

Condition No. 1.b, "Revision Number," was updated to Revision 8.

The references section was updated to include the corrected date.

CONCLUSION

The staff concludes that the changes indicated do not affect the ability of the package to meet the requirements of 10 CFR Part 71.

Issued with Certificate of Compliance No. 9342, Revision No. 8, on May 23, 2013.
