Columbia, SC 29209

SUBJECT: CORRECTION TO AUTHORIZATION FOR SHIPMENT OF THE MODEL NO.  
TRAVELLER PACKAGE WITH GREATER THAN AUTHORIZED TARE WEIGHT

Dear Ms. Sloma:

On May 13, 2013, as requested by your letter dated May 2, 2013, as supplemented May 8, 2013, staff issued a letter amending Certificate of Compliance (CoC) No. 9297 for the Model No. TRAVELLER package pursuant to Title 10 of the *Code of Federal Regulations* Part 71 to allow already loaded packages to be shipped while compliance with the tareweight limitations of the certificate is not ensured. This letter corrects the May 13, 2013, authorization by including two missing serial numbers. This authorization is valid for one shipping campaign for the packages with serial numbers listed in Enclosure 1 and shall begin on June 3, 2013, and expire on July 14, 2013. All other conditions of CoC No. 9297 shall remain the same.

If you have any questions regarding this authorization, please contact me or Huda Akhavannik at (301) 287-9241.

SAFETY EVALUATION REPORT  
Docket No. 71-9297  
Model No. TRAVELLER  
Certificate of Compliance No. 9297

## **SUMMARY**

By application dated May 2, 2013, as supplemented May 8, 2013, Westinghouse Electric Company, LLC (the applicant) requested a one-time authorization to ship the Model No. TRAVELLER packages exceeding the Certificate of Compliance (CoC) No. 9297 specified tare weight. On May 13, 2013, staff issued a letter granting this authorization; however, inadvertently failed to include two of the serial numbers. That letter is located under the Agencywide Documents Access and Management System under accession number ML13141A263. This is a reissuance of that letter including serial numbers TX193 and TX194.

CoC No. 9297 has been amended to authorize these shipments based on the statements and representations in the application. The staff agrees that the change does not affect the ability of the package to meet the requirements of 10 CFR Part 71.

## **EVALUATION**

By application dated May 2, 2013, as supplemented May 8, 2013, the applicant requested a one-time authorization to ship the Model No. TRAVELLER packages exceeding the CoC No. 9297 specified tare weight. Approximately 35 out of 70 TRAVELLER packages in this shipping campaign exceed the CoC specification of 3,155 pounds, with a highest measured weight of 3,220 pounds. These 35 packages exceed the CoC specified gross packaging weight by a maximum of 65 pounds.

In Revision 9 of the safety analysis report, structural analysis shown in Section 2.5.2, Table 2-4, uses a package upper gross weight limit of 5,100 pounds to demonstrate compliance to regulations not assessed by testing. Section 2.12.5.4 demonstrates an upper weight bound 5,398 pounds for the 9-meter hypothetical accident conditions drop test. These 35 packages exceeding the tare weight do not exceed the bounds of either the structural analysis or the drop testing.

Based on its review, the staff determined that the request does not affect the ability of the package to meet the requirements of 10 CFR Part 71.

## **CONDITIONS**

CoC No. 9297 has been amended by letter to authorize shipment of packages with maximum tare weight of 3,220 pounds. This letter supersedes the May 13, 2013, letter. The 70 loaded TRAVELLER packages, with serial numbers as listed below, are authorized for a one time shipment to Palo Verde Unit 3. All other conditions of CoC No. 9297 shall remain the same. This authorization expires July 14, 2013.

Serial Numbers of 70 Loaded Packages

TX86	TX128
TX87	TX159
TX78	TX160
TX90	TX162
TX92	TX164
TX98	TX168
TX106	TX170

TX156	TX210
TX202	TX211
TX157	TX213
TX158	TX218
TX141	TX146
TX143	TX221
TX165	TX189
TX193	TX194

**CONCLUSION**

CoC No. 9297 has been amended by letter to authorize shipment of 70 packages, 35 of which exceed the CoC specified tare weight. This authorization expires July 14, 2013.

Based on the statements and representations in the application, and with the conditions listed above, the staff agrees that this change does not affect the ability of the package to meet the requirements of 10 CFR Part 71.

Issued on May 23, 2013.
