SUBJECT
Expiration of NRC Type B Transportation Package Certificate for Sentinel Model 660 Series Radiographic Projectors

SUMMARY
Currently possess Model 660 projector(s): Yes - three
Aware of the pending expiration: Yes
Received letter from Sentinel: Yes
Received Information Notice from NRC: Yes
Plans may require license amendment: Not right now - currently authorized for 660 and 880, both of which they plan to keep using

Recently purchased a Model 880 camera, planning to send one of the three 660s back in return. Would like to keep the other two for fixed-cell operations. Strategy for return after CoC expiration would be to send the sources back in source changers and the empty cameras back separately. Not sure how to return the empty cameras in accordance with DOT requirements, so the RSO is going to call Sentinel this week to try and figure out the details.
