Ops Officer : BILL HUFFMAN
Entry Date : 5/29/2013 - 01:10
Entry Type : 50.72 LOGGED ONLY
Notify Date - Time : 5/29/2013 - 00:59
Event Date - Time : 5/28/2013 - 23:20 ()
Site : BRUNSWICK
Emergency Class :

Offsite Notification required to the North Carolina Wildlife Resource Commission.

On May 28, 2013, at 2320 EDT, a Kemp's Ridley Sea Turtle (1) was retrieved from the West Fish Flume at the Circulating Water Intake Pump structure. The condition of the turtle indicates that the death was recent, and the lethal take will be attributed to plant operations. A necropsy will be performed, and if it is determined that the take is not attributed to plant operations, an update to this notification will be made. Notification to the North Carolina Wildlife Resource Commission will be completed within 24 hours of the discovery. In accordance with plant procedures.

This non-emergency notification is being made pursuant to 10 CFR 50.72(b)(2)(xi) due to the required notification to the State agency.
The NRC resident inspector has been notified.

Notified the R2DO (Bonser) and e-mailed a copy to the endangered species group.
