Dear Mr. Precht:

This letter refers to our meeting at the State Museum of South Carolina in Columbia, South Carolina on May 21, 2013, during which we discussed the Nuclear Regulatory Commission's (NRC's) evaluation of your performance in the four major areas of safety operations, radiological controls, facility support, and licensing activities. The meeting afforded you the opportunity to provide feedback to the NRC regarding your perception of the NRC performance review. The meeting was beneficial and provided the NRC with an acceptable level of confidence of your continued safe and secure operation of the site.

The meeting also afforded the members of the public the opportunity to ask questions and provide feedback to the NRC regarding our inspection program for Westinghouse Electric Company. The list of meeting attendees is enclosed. The meeting slide presentations are available under accession numbers ML13150A126 (for NRC's slides) and ML13150A125 (for Westinghouse's slides) in ADAMS.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
