

Ronan Engineering Company

AFFIDAVIT

Craig A. Caris, being duly sworn, depose and state as follows:

I am the Radiation Safety Officer for Ronan Engineering Company and have been delegated the function of reviewing the information described below which is sought to be withheld, and have been authorized to apply for its withholding.

Ronan Engineering is required by Title 10 CFR 32.52 to submit a report to the Commission every calendar quarter, listing the names and addresses of each client to whom a general license distribution of a device was made. Additional information about the device, isotope, quantity and model number is also required. Copies of this report are distributed to each NRC Regional Office and to NRC Headquarters in Washington D.C.

Our company is the sole owner of the information provided in the reports as described above.

To the best of my knowledge, the information, as presented, is not currently available in public sources. Ronan Engineering Co. customarily treats this type of information as confidential. We have a formal policy for nondisclosure of trade secrets and proprietary information such as customer lists and commercial transactions.

Public disclosure of the information would be likely to cause substantial harm to our competitive position. Such information if made available and used by our competitors would provide direct access into our market places by providing them with a list of known users of the products they wish to sell, without expending any resources to develop said market.

Furthermore, a significant portion of our income is supported by continuing services. Publishing our quarterly reports or summary lists of all quarterly reports provides competitors with a customer list which may be used to enter our market place.

In view of the above, we respectfully request that the General License Distribution Reports that we submit to the NRC headquarters and regional offices be withheld from public disclosure.

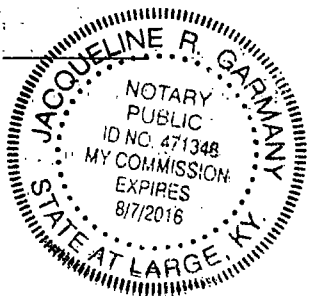

Dated: MAY 28 2013 By: [Signature]
Craig A. Caris

ACKNOWLEDGEMENT

The foregoing affidavit was acknowledged as true and correct before me this May 28 2013 by Craig A. Caris who was duly sworn.
