June 5, 2013

Docket No. 03012977  
Control No. 580189

License No. 47-17567-01

David S. Artman, M.B.A.  
Director of Operations  
Weirton Medical Center  
601 Colliers Way  
Weirton, WV 26062-5091

SUBJECT: WEIRTON MEDICAL CENTER, LICENSE AMENDMENT, CONTROL NO.  
580189

Dear Mr. Artman:

By letter dated March 8, 2013, Stateline Cardiac Imaging submitted to the U.S. Nuclear Regulatory Commission (NRC) a Request for Consent to direct License Transfer of facilities and equipment from NRC Materials License No. 47-25614-01. Based on the information you provided, we understand that as a result of a proposed sale, the existing facility at 485 Colliers Way, Suite L, Weirton, West Virginia, will be operated under the Weirton Medical Center license, License No. 47-17567-01. We further understand that this transfer will not result in any change to licensed material, persons using the licensed material, or location of use of licensed material. Finally, we understand that your Radiation Safety Officer will oversee the Radiation Safety Program in the facility previously operated by Stateline Cardiac Imaging.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report which documents the NRC staff's review of the request, we have no objection to the proposed transfer. We understand that the sale took place on April 1, 2013. Enclosed with this letter is the amended license transferring the facilities and materials of Stateline Cardiac Imaging under NRC License No. 47-25614-01 to the Weirton Medical Center license. This is being issued concurrent with the termination of the Stateline Cardiac Imaging license under Mail Control Number 580050. In addition, please note that the tie-down documents from License No. 47-25614-01 that described facilities, equipment, and procedures have been included in the last condition of the enclosed license.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing

Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement is not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,

***Original signed by Penny Lanzisera for***
