Corrected Copy of License

(NOTE: This will be used as the  
Documents Title in ADAMS)

6/6/13 (11:45) Ms. Smiley left a message on my voice-mail that the license for NASA appeared to have a wrong model number for a sealed source. She requested that I call her back. (12:45) I attempted to return the call and she was not in the office. (13:41) Ms. Smiley called back and left a message. She stated that the sealed source model listed as AFSS-0100 should be AFSS-0010. She wanted to know if the source could be shipped back to the licensee even with this error. (15:00) I returned Ms. Smiley's call. I informed her that I confirmed that the error had been made and that the sealed source model number should be AFSS-0010. A corrected copy would need to be made of the license and sent to the licensee. I stated that the source could not be returned to the licensee until the license was changed. I asked Ms. Smiley when the licensee expected the sources back and she informed me that the shipment date was June 28<sup>th</sup>. I let her know that if she wanted an update on the progress of the corrected copy, then she could contact Sheryl Villar.
