George,

Included below are NRC's comments on AREVA's Advanced Response to RAI 521, Question 15.00.03-39, submitted to NRC by email on 5/10/13. Please incorporate the information requested into the final version or request a conference call to discuss the comment.

RAI 521, Question 15.00.03-39, pertains to potentially unbuffered pools of water in containment post-LOCA. We have determined that for the staff to complete our evaluation, the final response needs to include the following:

A thorough description of all inputs and assumptions used for the LOCA dose sensitivity calculation and the results (similar to the discussion and tables provided in FSAR Tier 2 Section 15.0.3 for a LOCA). Alternatively, the dose calculation package could be provided as an attachment to the RAI response.
