*(Talked to Canaday. A letter in re
John confirming GL's GL
TRANSFER. Ujagar Bhachu
2013.06.11)*

Tesoro is purchasing assets from Chevron. These devices will remain in the same location, but I need to get them transferred and registered correctly. Please assist me with this thanks.

Please feel free to contact me if there are any questions.

Hi Kevin and Brooks,

Great news, the gauges are generally licensed – see message below. You will find the regulations for these instruments in 10 CFR Part 31.5. You can use the following link to access the regulations:
<http://www.nrc.gov/reading-rm/doc-collections/cfr/part031/part031-0005.html>

This means you don't need an NRC specific license. Unfortunately, when I spoke to my supervisor about my intentions to send back the check, he told me to verify the process with our fees department. I will send them an email and let you know what they instruct me to do.

I am happy we got to the bottom of this. Sorry you went through the trouble of preparing the application.

Sincerely,

Lizette Roldán-Otero, Ph.D.

Lizette,
Good news. The sources you sent the list of have been processed in my work with Chris Wolf and Ujagar. See the attached forms that we received from Chris and that should have been executed and returned with corrections to the NRC by Chevron's Burt Smith at our Salt Lake office.

Serial Number	GL-Number
---------------	-----------

B987	GL-726474-17
M5241	GL-726473-17
M5242	GL-726472-17
B989	GL-726471-17
B986	GL-726471-17

I don't have a copy of the executed forms, but it is my understanding that these have been signed and returned with corrections on names, titles noted.

Please let me know if you have any further questions.

This is the list Tesoro submitted to the NRC.

Please keep me updated with your findings.
