U.S. Nuclear Regulatory Commission  
11555 Rockville Pike  
Rockville, MD 20852-2738

Attn: Document Control Desk

Subject: Submission of a Request for an Extension to the Authorization for the NAC-LWT Cask to Allow Shipment of the Dounreay Fuel Contents Supplementing the Certificate of Compliance (CoC) No. 9225

Docket No. 71-9225

Reference: 

1. Model No. NAC-LWT Package, U.S. Nuclear Regulatory Commission (NRC) Certificate of Compliance (CoC) No. 9225, Revision 58
2. Safety Analysis Report (SAR) for the NAC Legal Weight Truck Cask, Revision 41, NAC International, April 2010
3. U.S. Nuclear Regulatory Commission letter to NAC International dated January 10, 2012, Subject: Authorization for a One-Time Shipment of the Dounreay Fuel Contents in the Model No. NAC-LWT Package

NAC International (NAC) herewith submits a request to extend the current authorization (Reference 3) to approve shipment of the Dounreay fuel material in the NAC-LWT cask in accordance with the requirements of References 1 and 2 until December 31, 2014. No technical changes are requested.

The currently approved CoC No. 9225 is Revision 58. Revision 58 authorizes the use of Revision 55 until December 31, 2013 to coincide with the expiration of the current authorization.

Due to current DOE shipping schedules, an extension is being requested until December 31, 2014. Should the licensing basis (References 1 and/or 2) change prior to the shipment taking place, NAC will communicate its need for modification of the references in the letter authorization in a timely manner.

If you have any comments or questions, please contact me on my direct line at 678-328-1274.

Sincerely

 for T. Patko
