Subject: AREVA Decommissioning Funding Plan (TAC L33240)
Date: Tuesday, June 18, 2013 1:52:00 PM

After AREVA submitted the responses to the RAI's concerning the DFP and tables provided by letter dated March 12, 2013 and email dated April, 22, 2013, NRC staff found the estimated costs reflected in the submittal and tables to be reasonable. However, AREVA described in the email that the disaggregation process of the tables "resulted in an approximate 3% increase in the cost estimate for these two potential projects (increased labor costs applied to certain tasks)". Please provide a justification for the 3% increase in the cost estimate. Also, provide justification for any other cost estimate increase, as mentioned in phone conversation on June 18, 2013.

If you have any questions, please call or email me.

Thanks,

Marilyn Diaz,

Project Manager/Chemical Engineer
U.S Nuclear Regulatory Commission
