Mr. Kevin Null
USNRC-Region III
2443 Warrenville Road, Suite 210
Lisle, IL 60532-4352

Dear Mr. Null:

This is a request for an amendment to our NRC license, Number 24-09296-02.

The following change is requested:

Remove Item G, Americium 241, from sections 6, 7 and 8 of the license. The institution has completed the radiological remediation and final status surveys of Magill and Rhodes Halls in accordance with previously approved procedures tied to its license. The accompanying report "Radiological Final Status Survey Evaluation of Americium-241 Activity at Southeast Missouri State University" has been prepared for your review. The report may be found on the CD which is included in this package.

Removal of Item G in sections 6, 7 and 8 should also result in removal of Item G in section 9. In addition, Item A in section 20 should have the reference to the "Decontamination and Survey Plan for Rhodes and Magill Halls dated November 2006" deleted. Finally, all of the documents under Item B of section 20 refer to licensed activities with Am241, and should be deleted.

I understand that this is an extensive report summarizing more than a decade's activities, and it provides final status survey evaluations for every space in Magill Hall, and all impacted spaces in Rhodes Hall. Therefore, there may be many questions. Please call me with questions at 573-651-2359, or email me at wlilly@semo.edu. In addition, my consultants are available for a conference calls or a site visit at any pre-arranged time as you see necessary.

Sincerely,

Walt W. Lilly
Professor of Biology
Radiation Safety Officer

Customer: This service area is provided for your internal use and convenience. Service must be marked on airbill.
