Washington, DC 20555

DCS-NRC-000354
24 June 2013

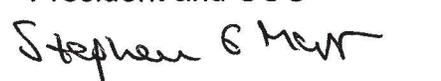

Subject: Docket Number 070-03098
Shaw AREVA MOX Services
Mixed Oxide Fuel Fabrication Facility
Notification of and Summary of Changes to previously submitted Plans

Shaw AREVA MOX Services, LLC (MOX Services) is submitting to the U.S. Nuclear Regulatory Commission (NRC) this notification and summary of changes to the following previously submitted Plans: Training and Qualification Plan, Security Contingency Response Plan, and the Physical Protection Plan.

A change has been made to correct some minor discrepancies in the classification marking mechanics to these previously submitted plans. The correction does not change the content of the documents or the classification level and category. As the correction did not reduce the effectiveness of the plans, this letter serves as both the NRC notification and summary of the changes.

If you have any questions, please feel free to contact me at (803) 819-2156 or our Licensing and Nuclear Safety Manager, Dealis Gwyn at (803) 819-2780.

Sincerely,

Kelly Trice
President and COO
