---

Paul,

Attached are preliminary questions that the NRC staff developed in response to its review of the Salem and Hope Creek flooding walkdown reports. The NRC staff is providing this initial set of questions to you in advance of the audit scheduled to begin on June 25, 2013. Please note that a response to these questions is not being requested at this time. Instead, the NRC staff is providing them to facilitate efficient and effective onsite interactions during the audit. Following the audit, any questions that require a docketed response will be communicated to you via the normal RAI process. Please let me know if you have any questions.
