Subject: Request for more comprehensive corrective actions.

(NOTE: This will be used as the Documents Title in ADAMS)

6/25/13 (08:50) I attempted to call the main phone number on the letterhead (631-461-8228) but the number was disconnected. (08:55) I used the toll-free number (866-467-8228) to leave a message for Barry Lissman, DVM or Gerald Bartlett, Ph.D. to get back in touch with me about the response letter dated June 3, 2013, in response to the NRC's inspection findings. (09:32) I spoke with Dr. Bennett about the licensee's response to our request for more comprehensive preventive actions. Dr. Bennett indicated that he would draft a reply and submit it within the next day or two by fax. The response would state that the corrective and preventive actions for the Stamford, CT facility detailed in the NRC's letter dated June 3, 2013, would be implemented for all present and future facilities of Thyro-Cat.
