Subject: RE: NRC New License Application Follow-up Questions

Please accept the following to your questions:

Question #1: Superior Paving Corp. request authorization to utilize gauges in areas of exclusive Federal jurisdiction.

Question #2: I, Michael T. Atkins, am currently the Director of Safety, and a senior member of management. I am authorized to sign all future submissions submitted to the agency.

Question #3: The maximum amount of material that we would possess in Federal jurisdiction would not exceed 27 millicuries at any one time.

Please advise if you require additional information.

Thanks,

Todd Atkins

Director of Safety

Subject: NRC New License Application Follow-up Questions

Todd,

Thank you for the submittals. I would like to point out that we can't authorize the storage or use in Virginia. In addition, please respond to this email with answers to the following questions:

1. Please confirm that you wish for authorization to utilize gauges in areas of exclusive Federal jurisdiction;
2. We must ensure that a senior member of management signs all application requests. Please confirm that you are a member of management and that all future submissions will be signed by a member of management before being submitted to the Agency;
3. Please confirm the maximum amount of material you wish to possess in Federal jurisdiction at any one time.

Thanks. Shawn
