Subject: RE: FW: Your petition dated 3/12/11, filed under 10CFR 2.206 - G20110171 - ME5840

Mr. Saporito:

This is to provide you an update on your above referenced petition, which was submitted on March 12, 2011. By letter dated 6/28/11, the Director of the Office of Nuclear Reactor Regulation, Eric Leeds, partially accepted your petition, dated 3/12/2011, filed under 10 CFR 2.206. His letter stated that: *"Although the NRC is rejecting your requests for immediate action, we are accepting your petition to the extent you seek some type of enforcement action in light of the events at Fukushima. Taking into account any findings issued by the task force, the NRC expects to evaluate in the near future whether it should take any enforcement action based on the events you have identified."* The purpose of this e-mail is to inform you that the PRB is continuing to evaluate your petition. Due to a number of activities related to events at Fukushima, the target date to complete its review is 6/30/15.
