Dear Mr. McGuire:

The Office of Federal and State Materials and Environmental Management Programs has received your June 27, 2013, letter transmitting the Texas Commission on Environmental Quality's proposed revision to the final regulations to incorporate RATS ID: 1999-1 and the provisions in Part 40. We note that this revision is in response to the two comments provided in the NRC letter dated May 13, 2009.

The review has been assigned to Dennis Sollenberger and it is our goal to complete the review within 60 days. If you have any further comments or questions, please contact me. Thank you for your attention.
