Subject: RE: Question on Revisions to Fitness for Duty Programs" Drug Testing Requirements
Date: Tuesday, July 02, 2013 9:25:00 AM

Kelli –

Thanks for your interest in the regulatory basis regarding potential changes to 10 CFR Part 26. To be clear, the only document that was published was a regulatory basis document, highlighting the NRC's rationale for undertaking a rulemaking effort. We are currently in the process of developing a proposed rule.

The regulatory basis is currently available in the docket folder (NRC-2009-0225) on www.regulations.gov, linked [here](#). Please do not hesitate to contact me if you have any additional questions or concerns.

Thanks,

Scott Sloan

Subject: Question on Revisions to Fitness for Duty Programs' Drug Testing Requirements

Scott,

The attached page from the Federal Register indicates that the NRC is proposing a revision to 10 CFR Part 26 that will (1) enhance the ability of NRC licensees to detect and deter drug use and (2) align the NRC's regulations with select drug testing provisions in the U.S. Department of Health and Human Services' "Mandatory Guidelines for Federal Workplace Drug Testing Programs" issued in 2008. I would like to see the proposed changes to the rule. I have searched www.regulations.gov and ADAMS unsuccessfully. Are any documents available yet? If not, do you know when they will become available?

Thank you!

Kelli A. Roberts
