Dear Sir / Madam,

Pursuant to the Freedom of Information Act (FOIA), I am requesting the following records pertaining to the above referenced sites located in St. Louis County, Missouri:

**Any and all on-site and off-site documents referencing or pertaining to testing performed to detect the presence of radiologic and/or radioactive contamination for the years 1946 to present for each of the above referenced sites.**

“Documentation” is defined broadly to encompass print material and electronically stored information including but not limited to memoranda, reports notes, electronic mail, CD’s, DVD’s, flash drives, hard drives, powerpoint presentations, spreadsheets, databases, photographs, etc.

I would also like to encompass, not only the U.S. Nuclear Regulatory Commission but also the Manhattan Engineering District in the above search. To my understanding the entity Manhattan Engineering District was merged with the U.S. Nuclear Regulatory Commission.

Thank you in advance for your assistance with this matter. Please produce the documents on CD’s, DVD’s, flash drive and/or hard drive sent to my attention along with an affidavit certifying the authenticity of the documents. We have included a Business Records Affidavit for your use or reference.

We are willing to pay a reasonable fee, anything over \$100.00 please contact for approval.

P.S. We have also sent this request via u.s. mail, please disregard if submittal electronically is sufficient.

Thanks,

**Mandi Dodd**
