MF0773)" (ADAMS Accession No. ML13121A187)

On March 12, 2012, the Nuclear Regulatory Commission (NRC) issued an order (Reference 1) to Union Electric Company (dba Ameren Missouri) for Callaway Plant. Reference 1 was immediately

effective and directed Ameren Missouri to have a reliable indication of water level in associated spent fuel storage pools at Callaway Plant.

Reference 1 required submission of an initial status report 60 days following issuance of final interim staff guidance, and an overall integrated plan by February 28, 2013. Ameren Missouri provided those responses in References 2 and 3.

Reference 4 transmitted a Request for Additional Information (RAI) from the NRC to Ameren Missouri and requested a response within 30 days from the date of that letter. Ameren Missouri's response to the RAI for Callaway Plant is contained in the Enclosure to this letter.

This letter does not contain any new or revised regulatory commitments.

If you have any questions concerning the content of this letter, please contact Scott Maglio, Regulatory Affairs Manager, at 573-676-8719.

I declare under penalty of perjury that the foregoing is true and correct.

Sincerely,

Executed on: 7/3/13
