Dear Mr. Meyers:

This letter confirms our plans, as discussed between members of our staffs, to hold a Regulatory Conference to discuss a preliminary Yellow finding. The details regarding the issue were conveyed to you in our Inspection Report 05000266/2013011 and 05000301/2013011 dated June 18, 2013. The meeting will begin at 1:00 p.m. (CST) on Monday, July 22, 2013, at the Nuclear Regulatory Commission (NRC) Region III Office, 2443 Warrenville Road, Suite 210 Lisle, IL 60532-4352. This meeting will be open to the public.

The Regulatory Conference is being held to obtain information to assist the NRC in determining the safety significance of the finding and apparent violation detailed in the referenced inspection report. The conference will provide an opportunity for you to present your perspective on the facts and assumptions used by the NRC to arrive at the finding, your assessment of the significance of the finding, and any other information that you believe the NRC should take into consideration in making an enforcement decision.

The NRC would appreciate receiving any supporting documents no later than Monday, July 15, 2013, in order to make the conference more effective and efficient.

Following the conference, you will be advised by separate correspondence of the results of our deliberations on this matter.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of NRC's Agencywide Documents Access and Management Systems (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
