SUBJECT: MEETING ANNOUNCEMENT - CATEGORY ONE - REGULATORY
CONFERENCE – BROWNS FERRY NUCLEAR PLANT, DOCKET NO. 50-260

Dear Mr. Shea:

This letter is to inform you of a Category 1 public meeting which has been scheduled for July 24, 2013, at 1:00 p.m. Eastern Standard Time (EST). The enclosed meeting notice provides additional details. The purpose of this Regulatory Conference, scheduled at your request, is to discuss the safety significance of one preliminary Greater Than Green finding associated with one Apparent Violation that was documented in NRC Inspection Report 05000260/2013012 (ML13162A780). This finding involved the failure to properly implement procedure 2-OI-99, Reactor Protection System. Specifically, during restoration of 2B Reactor Protection System (RPS) 480 volt power, the RPS motor generator set tie to battery board 2 breaker on the 2A RPS bus motor generator set was incorrectly opened, causing a Unit 2 reactor scram and main steam isolation valves (MSIV) closure. This conference will also address whether enforcement action is warranted for the associated Apparent Violation.

It is expected, but not required, that you provide on the docket, at least seven days prior to the Regulatory Conference, any information considered applicable to the finding.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
