(Denial of Senior Reactor Operator License)

Docket No. 55-23694-SP

ASLBP No. 13-925-01-SP-BD01

July 10, 2013

ORDER

(Information Requests for the NRC Staff and Designation of Board Exhibit)

Per the July 1, 2013, teleconference,¹ the Board requests that the NRC Staff provide the following information by 5:00 p.m. on Monday, July 15:

1. Proposed Exhibit CCS-014, at page 13 (handwritten page number), states that “the manager” found 33 instances during the period of 1/1/09 through 6/30/12 in which NRC Region II granted waivers of the operating test, and that “the manager” compared the simulator test competency scores for those individuals who were granted waivers to Ms. Smith’s scores and concluded that her scores were, overall, significantly below those who were granted waivers. Please provide the Board with the specific documents or other information that “the manager” reviewed in arriving at this conclusion. If the information was in the form of computer data, rather than a document, please provide a printout of the data in a form that can be understood by the Board.

2. Please expand proposed Exhibit NRC-008 to include the same information for Vogtle SRO and RO candidates who passed both the written exam and the operating exam and received licenses during the time period covered by NRC-008.

¹ See Tr. at 105.

3. Please provide the ES-303 forms for all Vogtle SRO or RO license applicants who took the operating exam in either March 2011, March/April 2012, or both, regardless of whether they passed or failed the exam.

Instead of actually producing the requested documents to the Board, the Staff may provide the ADAMS Accession numbers for the relevant documents.

In addition to these requests, the Board notifies the parties that it intends to include in the record as Board Exhibit 001 the document identified as ADAMS Accession No. ML13080A128. This document is referenced in CCS-040 and 041, but, as far as the Board has been able to determine, has not itself been made an exhibit.

It is so ORDERED.
